

Issues in Indian Agricultural Extension

- 1. Mega Agricultural Extension delivery system**
- 2. Whether planning process matches the ground realities or missing out in prioritisation**
- 3. Strong technology generation and weak delivery mechanism**
- 4. Wide ratio between farmer and Extension worker**
- 5. Weak linkage between Farmer-Research-Extension-Market**
- 6. Narrow focus of Extension**
- 7. Lack of supporting Infrastructure**
- 8. ICT potential is yet to be harnessed**
- 9. Agriculture to Agri entrepreneurship**

**10. Farmer is one and departments are many-
Convergence**

11. How to build accountability in Extension

12. Widen the role of Extension

13. Changing role of Extension worker

14. Innovation led Extension

15. Capacity building of Extension functionaries

16. Whether PPP potential is under-utilised?

17. Training policy in Extension

**18. Directory of Individuals and Institutions in
Extension**
